A photograph of a server rack filled with various electronic equipment, including switches and routers, with numerous cables connected. A white label is visible on the left side of the rack. The rack is densely packed with hardware, and the cables are organized in a somewhat chaotic but functional manner. The equipment includes several network switches and routers, some with multiple ports and indicator lights. The cables are color-coded and bundled together, running vertically and horizontally across the rack. A white label with text is attached to the left side of the rack, partially obscured by the equipment. The overall scene depicts a complex network infrastructure setup.
